Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

Ratings assigned to bank facilities and debt instruments of Hinduja Leyland Finance Limited (HLF) reflect the strategic and financial support from its parent, Ashok Leyland Limited (ALL; rated CARE AA+; Stable/CARE A1+), which held a 61.1% stake in HLF as of March 31, 2025. The Hinduja Group's total shareholding stood at 74.5% as on March 31, 2025. HLF benefits from periodic equity infusions by the parent, operational linkages through ALL's dealer network, and a shared brand name.

Ratings continue to factor in the company's experienced management team, demonstrated fund-raising ability to support business growth, adequate capitalisation levels, diversified product offerings, wide geographic presence, and relatively diversified funding

¹Complete definition of ratings assigned are available at www.careratings.com and other CARE Ratings Limited's publications.

profile. The company's consolidated assets under management (AUM) grew significantly by 25% year-on-year (y-o-y) to ₹61,692 crore as on March 31, 2025. However, ratings continue to be tempered by moderate profitability and asset quality indicators.

CARE Ratings Limited (CareEdge Ratings) notes developments in the proposed scheme of merger by absorption of HLF into NDV Ventures Limited (formerly known as NXTDIGITAL Limited), which was approved by HLF's board of directors in FY23. The company had applied to the Reserve Bank of India (RBI) for approval, which has since been received in August 2025. Subsequently, approvals from other statutory bodies, shareholders, and lenders will follow. Currently, NDV Ventures Limited has limited operations and holds only minimal assets, primarily cash and small parcels of land, which are negligible compared to HLF's net worth.

The merger is not expected to impact HLF's credit profile. However, it will result in HLF becoming a publicly listed entity, enabling direct access to equity capital markets. Existing HLF shareholders will receive shares in NDV Ventures Limited based on a revised share swap valuation.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Factors that could individually or collectively lead to positive rating action/upgrade:

- Substantial increase in scale of operations and improvement in asset quality and profitability parameters with significant increase in return on total assets (ROTA) on a sustained basis.
- Improvement in credit profile of the parent.

Negative factors: Factors that could individually or collectively lead to negative rating action/downgrade:

- Significant deterioration in asset quality and delinquency levels on a sustained basis.
- Deterioration in capital adequacy parameters below regulatory requirement.
- Material dilution in ALL's shareholding in HLF.
- Significant deterioration in credit profile of the parent.

Analytical approach: Consolidated approach, factoring in linkages with the parent, ALL.

CareEdge Ratings has taken a consolidated approach, factoring operational and business linkages among HLF and its subsidiaries, and the common promoter group. Subsidiaries considered for consolidation are listed under Annexure-6. HLF benefits from strong operational synergies, including access to ALL's dealer network and use of a shared brand name and logo. In addition to a proven track record of equity infusions, HLF enjoys financial flexibility, enabling it to raise funds from diverse sources at competitive rates.

Outlook: Stable

The stable outlook reflects likely continuation of stable credit profile supported by a diversified product profile and demonstrated fund-raising ability, including benefits derived from being part of the Hinduja group.

Detailed description of key rating drivers:

Key strengths

Strong parentage and benefits derived from being part of Hinduja group

Established in 1918, the Hinduja Group has built global presence across 30 countries, with diversified operations in automotive, banking and finance, IT/ITES, energy, and chemicals. HLF is a subsidiary of ALL, a leading player in India's commercial vehicle segment, rated CARE AA+; Stable/CARE A1+. HLF is considered a strategically important entity of ALL, with ALL vehicles accounting for ~25% of HLF's consolidated AUM as on March 31, 2025. HLF contributes ~10-11% to ALL's market share.

HLF benefits from strong financial flexibility as part of the Hinduja Group, enabling access to diverse funding sources at competitive rates. CareEdge Ratings expects the parent to continue to provide need-based support to HLF.

Experienced promoters and senior management team

The Hinduja Group has well-established track record in building and managing businesses within the banking and financial services sector. HLF's key strength lies in its experienced leadership team, with deep expertise in managing similar financial operations.

HLF's board comprises eight directors, including four independent members with significant experience in financial services. The company is further supported by a seasoned senior management team that ensures efficient and professional oversight of day-to-day operations.

Diversified funding profile, however, bank funding remains a major source in recent years

HLF's standalone funding profile is well-diversified, with access to low-cost funding from banks and capital market instruments such as non-convertible debentures (NCDs), subordinated debt, and commercial papers (CPs). Bank borrowings, including cash credit and working capital demand loans, accounted for 77.9% of total borrowings as on March 31, 2025 (March 31, 2024: 78.0%), with a balanced mix of public and private sector banks.

As on March 31, 2025, borrowings from NBFCs/financial institutions stood at 9.3%, followed by subordinated debt at 6.6%, NCDs at 2.4%, perpetual debt instruments (PDI) at 0.7%, and CPs at 0.3%. External commercial borrowings (ECB) increased to 2.8% from 0.7% in the previous year. Funds raised through direct assignment (DA) stood at ₹8,226 crore (March 31, 2024: ₹6,917 crore).

On a standalone basis, as on September 30, 2025, the funding mix comprised term loans from banks (76.0%), NBFCs/FIs (7.0%), subordinated debt (6.9%), ECB (5.1%), NCDs (4.3%), and PDI (0.7%). Funds raised through DA stood at ₹8,477 crore. CareEdge Ratings anticipates an increase in capital market borrowings in the medium term.

Adequate capitalisation levels

HLF's capitalisation remains adequate, with consolidated net worth rising to ₹8,694 crore as on March 31, 2025, from ₹6,810 crore as on March 31, 2024. This growth was driven by strong internal accruals and an equity infusion of ₹200 crore from its parent, ALL. Consolidated gearing stood at 5.3x as on March 31, 2025, compared to 5.4x as on March 31, 2024. Gearing stood at 5.1x as on September 30, 2025.

On a standalone basis, HLF's capital adequacy remained comfortable, with total capital adequacy ratio (CAR) at 19.3% and Tier-I CAR at 13.6% as on March 31, 2025 (March 31, 2024: 17.3% and 14.4%, respectively). As on September 30, 2025, CAR and Tier-I CAR stood at 18.7% and 12.7%. The company raised ₹1,904 crore in subordinated debt in FY25 and H1FY26. Standalone gearing remained stable at 5.0x as on September 30, 2025. CareEdge Ratings expects gearing to remain within 6x, supported by the Hinduja Group's ongoing commitment to provide need-based equity support.

HLF operates Hinduja Housing Finance Limited (HHFL), a wholly owned subsidiary incorporated in FY16 to serve the housing finance segment. Since inception, HLF has infused ₹493 crore into HHFL. HLF has invested in Gro Digital Platform, a joint venture (JV) with ALL offering solutions to transporters and Gaadimandi Platform, a wholly owned digital marketplace for pre-owned vehicles.

Diversified product portfolio along with geographical diversification

HLF has demonstrated strong operational performance in FY25, with consolidated AUM growing by ~25% (y-o-y) to ₹61,692 crore as on March 31, 2025 (FY24: ₹49,325 crore). Growth momentum continued in H1FY26, with AUM increasing by 9% to ₹67,358 crore as on September 30, 2025.

On a standalone basis, AUM increased by 24% y-o-y to ₹47,872 crore as of March 31, 2025 (March 31, 2024: ₹38,685 crore), and further grew to ₹52,635 crore as on September 30, 2025.

HLF's portfolio remains well-diversified across segments including commercial vehicles (CV), loan against property (LAP), two-wheelers, three-wheelers, and corporate/wholesale lending. The heavy commercial vehicles (HCV) segment continues to be a key contributor, accounting for 25% of the loan book as on March 31, 2025 (March 31, 2024: 26%). Top three product segments including HCV, LAP, and construction equipment (CE), collectively represented 60.4% of the portfolio (March 31, 2024: 59%). The two-wheeler segment showed notable growth, increasing its share to 8.9% as on March 31, 2025, from 7.7% in the previous year. The company has reduced its exposure to wholesale segment to 5.6% as on March 31, 2025, compared to 9.1% as on March 31, 2024. HLF's focus is predominantly towards funding new vehicles, with used vehicles accounting for ~17% of standalone AUM.

Geographically, HLF operates across 23 states and two union territories. Contribution of top three states to overall AUM increased to ~41% as on March 31, 2025, compared to ~39% as on March 31, 2024. CareEdge Ratings expects continued diversification across products and geographies in the medium term.

In the housing finance segment, HLF's wholly owned subsidiary, HHFL, reported ~31% y-o-y growth in AUM, which increased from ₹10,550 crore as on March 31, 2024, to ₹13,820 crore as on March 31, 2025. AUM further increased to ₹14,903 crore as on September 30, 2025. CareEdge Ratings anticipates sustained growth momentum in HHFL.

Key weaknesses

Moderate asset quality

On a consolidated basis, HLF's gross non-performing assets (GNPA) on AUM improved to 2.8% as of March 31, 2025, from 3.1% in the previous year, and remained stable at 2.8% as on September 30, 2025.

On a standalone basis, GNPA on AUM basis declined to 2.9% as on March 31, 2025 (March 31, 2024: 3.3%), and to 2.9% as on September 30, 2025. On a standalone basis, GNPA (on-book) and net NPA (NNPA) improved to 3.6% and 2.1%, respectively, as on March 31, 2025 (March 31, 2024: 4.3% and 2.7%), and remained stable at 3.6% and 2.0%, respectively, as on September 30, 2025. Improvement in asset quality is attributed to enhanced collection efforts and write-offs.

CareEdge Ratings notes an uptick in early delinquencies in certain segments, particularly two-wheeler loans, due to overlaps with stressed microfinance and unsecured lending. Overall, 30+ days past due (DPD) on AUM improved from ~10.0% as on March 31, 2024, to ~9.8% as of March 31, 2025, and stood at 10.0% as on September 30, 2025.

HLF's standard restructured portfolio declined significantly to ₹227 crore (0.5% of AUM) as on March 31, 2025, from ₹607 crore (1.6% of AUM) in the previous year. Outstanding security receipts stood at ₹466 crore (0.9% of AUM) as on March 31, 2025, down from ₹553 crore (1.4% of AUM) as on March 31, 2024.

CareEdge Ratings notes that improved collection efficiency supports asset quality metrics. The company's ability to further enhance asset quality and control slippages will remain a key monitorable.

Moderate profitability levels

In FY25, HLF reported consolidated profit after tax (PAT) of ₹774 crore, compared to ₹636 crore in FY24. Despite modest net interest margin (NIM) due to elevated cash and liquid investments, and higher operating expenses driven by increased fee-related costs, pre-provision operating profit (PPOP) improved to ₹1,692 crore (FY24: ₹1,414 crore). Lower credit costs helped offset the impact of reduced NIM and higher expenses, resulting in a stable ROTA of 1.5% (FY24: 1.6%).

In accordance with Indian accounting standards (Ind-AS), HLF recognised a portion of its loan book under fair value through other comprehensive income (FVOCI). In FY25, fair value changes reported under OCI stood at ₹909 crore, compared to ₹573 crore in FY24, in addition to the reported PAT.

In H1FY26, HLF reported consolidated PAT of ₹352 crore on total income of ₹3,824 crore, with ROTA at 1.2% compared to PAT of ₹305 on total income of ₹2,843 crore with ROTA of 1.3% in H1FY25. CareEdge Ratings observed an increase in credit costs in FY25 and H1FY26, driven by higher write-offs, losses on repossessed assets, and changes in provisioning policy at its subsidiary, HHFL, which impacted overall profitability. Profitability is expected to remain moderate in the near term.

On a standalone basis, HLF reported PAT of ₹408 crore in FY25 (FY24: ₹340 crore), with ROTA at 1.0% (FY24: 1.1%). For H1FY26, standalone PAT stood at ₹193 crore on total income of ₹2,712 crore, with ROTA at 0.8% compared to PAT of ₹149 crore on total income of ₹2,086 crore with ROTA of 0.8% in H1FY25. Increase in credit costs in the quarter was primarily due to higher write-offs and losses on repossessed assets. Going forward, HLF's profitability is expected to remain stable, supported by income from DA and a relatively lower NIM, owing to a higher share of captive financing.

Liquidity: Adequate

On a standalone basis, HLF's liquidity is adequate, with its asset liability management (ALM) having no negative cumulative mismatches in time buckets up to one year as on September 30, 2025. As on September 30, 2025, the company had free cash and cash equivalents of ~₹5,296 crore (10% of AUM) and un-availed lines of credit (including cash collateral [CC]) of ₹9,816 crore. The company's ability to mobilise funds from banks at a competitive rate adds comfort.
